

Ingate SIParator® Training

We are now organizing new SIParator® training sessions. You are very welcome to attend!

Time: Mars 25-26, 2014

Place: Ingate's headquarters in Stockholm,
Address: Rissneleden 45, Sundbyberg, Sweden

For: Engineers who works with the Ingate SIParator® products

Welcome to participate at Ingate's SIParator® Training which will be held in Stockholm, Mars 25-26. Learn the ins and outs of working with Ingate Firewalls and SIParators® to enable SIP trunking and all SIP based unified communications faster than ever before. Through practical exercises this training will give you a better knowledge and understanding of the product and how to manage it efficiently.

Following is an extract from the agenda:

- The SIP protocol – design and functionality
- The role of an SBC
- SIP and firewalls – issues and solutions
- SIP implementations with Ingate products
- Ingate products from a SIP perspective
- Review of the SIP-related parts in Ingate's configuration GUI
- Practical exercises in configuring Ingate Firewalls and SIParators®

Prerequisites for the Ingate SIParator® Training:

- General knowledge of data networks
- Basic TCP/IP knowledge and associated protocols
- IP addressing and subnetting
- Routing
- NAT (Network Address Translation), public and private IP-addressing
- Basic firewalling concept
- Basic firewall hands-on experience
- Basic SIP knowledge

Training will be held by Gino Larenas, Ingate Technical Support.
The cost for the SIP course is € 850 per person.

Please confirm your attendance to christian@ingate.com, before Mars 17. Available places are distributed on a first come first serve basis. Your application is binding whether you attend the classes or not.

If you have any questions please contact Christian Wannerwall at christian@ingate.com, +735 89 95 26 or Gino Larenas at gino@ingate.com, +46-8-600 77 55.
